

the  
**Heise**<sup>®</sup>  
**HHC pressure  
 and temperature  
 module upgrade  
 program**

03/26/2015 - REV A

Return existing HQS pressure and temperature modules to the factory to be updated for compatibility with the Heise<sup>®</sup> PTE-2 handheld calibrator.

Modules will be functionally tested and updated with new sealed housings compatible with the new PTE-2 handheld calibrator base units. The modules will retain their original serial number and will be relabeled with HM2 part numbers.

The upgrade charge is \$60.00 net for each module to be upgraded.

Part numbers have been assigned for upgrade of various modules:

P/N	Description
REPAIR-HHC1 MOD	Module Upgrade Assembly, Low Pressure model HQS-1
REPAIR-HHC2 MOD	Module Upgrade Assembly, High and Medium Pressure model HQS-2
REPAIR-TC MOD	Thermocouple Module Upgrade model HQS-TC1
REPAIR-RT MOD	RTD Module Upgrade models HQS-RT1 and HQS-RT2

Modules can also be recalibrated for an additional charge. Recalibration is optional. Calibration charges are based on the accuracy of the pressure module and are as follow:

Accuracy	Net Price
±0.1%.....	\$125
±0.05 -0.07% .....	\$250
±0.025%.....	\$375
RTD or Thermocouple Temperature modules recalibration .....	\$125
“As Found” Calibration adder .....	\$125
Upgrade charge.....	\$ 60

All prices shown are net prices-no discount multiplier need be applied. Contact the Heise RMA group at 203-385-0253 to obtain an RMA number to return your modules for upgrade.
